

Experiment 7

AIM: To Create Scrum Board for Scrum Master using JIRA Tool.

Theory:

To create a Scrum Board for a Scrum Master using the JIRA tool, you need to follow these steps:

Create a Scrum Project in JIRA:

Log in to your JIRA account and select a template from the library, choosing the Scrum template.

Once the project is created, you will land on the empty backlog, also known as the product backlog, containing a list of potential work items for the project

Create User Stories or Tasks in the Backlog:

In JIRA, work items like user stories, tasks, and bugs are referred to as "issues." Create user stories using the quick create option on the backlog.

User stories describe work items in a non-technical language from a user's perspective, following the format: "As a {type of user}, I want {goal} so that I {receive benefit}"

Prioritize User Stories in the Backlog:

After creating user stories, prioritize them by ranking or dragging and dropping them in the order they should be worked on.

The product owner usually prioritizes user stories, and the development team estimates the effort required to complete each story

Create a Scrum Board in JIRA:

Click on Search > View all boards and then Create board.

Select the board type as Scrum and choose whether to start with a new project template or add the board to existing projects.

Configure columns and quick filters to reflect your team's process and focus on specific issues quickly

Navigate Between Boards:

Use the board switcher located in the left-hand menu under the project name to move between different boards in JIRA

By following these steps, a Scrum Master can effectively create a Scrum Board in JIRA, enabling efficient management of tasks, user stories, and sprints within the agile project management framework.

This screenshot shows the Jira Board view for the 'T23 Team' space. The interface includes a left sidebar with navigation options like 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Spaces', 'Filters', 'Dashboards', 'Teams', and 'Customize sidebar'. The main content area displays a Kanban board with three columns: 'TO DO' (2 items), 'IN PROGRESS', and 'DONE' (2 items). The 'TO DO' column contains 'Task 1' (due Feb 10, 2026) and 'Task 2' (due Feb 11, 2026). The 'DONE' column contains 'Task 1' (completed Feb 8, 2026) and 'Task 2' (completed Feb 13, 2026). A 'Complete sprint' button is visible in the top right. The browser address bar shows the URL: 'peeya.atlassian.net/jira/software/projects/SCRUM/boards/1'.

This screenshot shows the Jira Backlog view for the 'T23 Team' space. A 'Start another sprint' dialog box is open in the foreground, allowing the user to create a new sprint. The dialog includes the following fields and options:

- Sprint name ***: SCRUM Sprint 1
- Duration ***: 2 weeks
- Start date ***: 2/10/2026, 2:11 PM
- Planned start date**: 2/10/2026, 2:14 PM
- End date ***: 2/24/2026, 2:14 PM
- Sprint goal**: (Empty text box)

The dialog also indicates that '1 work item will be included in this sprint' and provides a 'Start' button to confirm the creation. The background shows the Jira Backlog view with a list of work items.

The screenshot displays the Jira interface for the 'T23 Team' space, specifically a Kanban board. The browser address bar shows the URL: `peeya.atlassian.net/jira/software/projects/SCRUM/boards/1?sprintStarted=true&sprints=35`. The left sidebar contains navigation options like 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Spaces', 'Filters', 'Dashboards', 'Teams', and 'Customize sidebar'. The main content area shows the 'T23 Team' space with tabs for 'Summary', 'Backlog', 'Board', 'Calendar', 'Timeline', 'Pages', and 'Forms'. The 'Board' tab is active, showing a Kanban board with three columns: 'TO DO 3 OF 3', 'IN PROGRESS', and 'DONE 2 OF 2'. The 'TO DO' column contains three tasks: 'Task 1' (due Feb 10, 2026, SCRUM-7), 'Task 2' (due Feb 11, 2026, SCRUM-8), and 'Login page' (SCRUM-9). The 'IN PROGRESS' column is empty. The 'DONE' column contains two tasks: 'Task 1' (due Feb 8, 2026, SCRUM-1) and 'Task 2' (due Feb 13, 2026, SCRUM-2). The bottom of the image shows the Windows taskbar with the Start button, search bar, and several application icons.
